

Web Test Analyst

We are currently looking for an experienced test analyst to join our web development team. This is a hands-on role working very closely with the Developers and Business Analysts.

The Web Test analyst will be responsible for planning and executing test strategies, test plans and test cases.

KEY RESPONSIBILITIES

- Assist with estimation, planning and scheduling of test cases
- Create/contribute to the process of establishing Acceptance Criteria
- Analyse user stories and write test cases against the acceptance criteria.
- Develop & execute manual test cases.
- Collaborate closely with development team and product owner.
- Communicate issues/risks/concerns as they arise, to the team.
- Understand continuous improvement and its importance on a team.
- Contribute to retrospectives, team meetings, testing decisions & showcases.
- Strive to become a point of contact/domain expert.

MANDATORY REQUIREMENTS

- At least 3 years experience as a Manual Web Tester.
- Experience in testing CMS (Magento / Drupal / Wordpress)
- Experience in testing e-Commerce applications and payment gateways
- Experience testing UI/UX for responsiveness across different devices and browsers
- Knowledge and experience with WCAG v2.0 for accessibility
- Good working knowledge of integration, functional & system testing in a web based environment
- Solid understanding of testing tools, processes and testing scenarios
- Good communication skills working in a collaborative work environment

DESIRED

- Good understanding of SDLC and Agile software delivery
- Knowledge of SQL and SoapUI
- Knowledge of JIRA and Confluence

TO APPLY

If you think you have what it takes for this exciting role, please apply directly to Andrea (andrea@predikkta.com) with a cover letter telling us why you would be a perfect fit for the role.

We look forward to hearing from you.

Please note: Only successful applicants will be contacted.
